Great place!! Me and my wife went earlier last week and ate at the bar. Nice relaxed atmosphere with friendly bartenders!!! Glad to see a restaurant like this come to Johns Creek.

I visited Kozmo gastropub earlier this week and was very impressed. the service was fast and the food was amazing. I had the macaroni and cheese and my husband had the beef short rib pasta. Both were delicious. The atmosphere is modern and fun. we will be back.

We really need more restaurants like Kozmo out here in the suburbs. Minimalist decor, great menu, good music.

This would be a great place for a girls' night out, an after-work happy hour (great wine list, btw), or just someplace to go relax and hang out when you don't feel like cooking. We even took our kids. The Mac 'n' Cheese was delicious.

They aren't open for lunch yet but definitely stop by and try them out for dinner.
